

QUALITY POLICY

Momo, 31 July 2018

The **Officine Fonderie Pasquale Ghidoli Srl** considers the quality of products, services and processes, a priority and essential condition for the continuity and growth of the company. Aware of this, it believes that the implementation of a quality management system compliant with the UNI EN ISO 9001: 2015 standard is a valid tool that will allow it to operate in full compliance with the applicable legislation and regulations, while providing, at the same time, also a competitive advantage.

This is why the company makes the necessary resources available and undertakes to operate in accordance with the following strategic lines:

- Strong attention to issues related to environmental protection, safety and compliance with relevant laws and compliance obligations.
- Process approach and risk-based thinking, through the planning of actions that address risks and opportunities to achieve the expected results more efficiently.
- Continuous improvement of its quality performance based on the identified indicators and in order to satisfy customer requests.
- Awareness and training of personnel on qualitative aspects inherent to the production cycle and involvement of suppliers in the improvement process.
- Correct and careful use of the human, energy and material resources necessary for carrying out the activity in order to contain costs.
- High level of attention on emerging technologies, to identify innovative, economically sustainable technical solutions that allow the development of new products aimed at satisfying market needs.
- Dissemination of the quality policy among customers, suppliers of products and services, representatives of local authorities, citizenship and anyone who requests it. For these purposes it constantly strives to ensure that the culture of quality becomes an integral part of the entire organization, bearing in mind how this is a winning aspect for the image of the company to the outside.

This policy constitutes a constant framework of reference for establishing, achieving and reviewing the quality objectives that the company sets itself. This policy is adequately disseminated, kept active and operating within the organization, so it is the responsibility of each employee to respect and apply it.
